

Examples of Purchases Using LOCASE Grant scheme

Below is a sample list of the things that have been purchased using the grant scheme contribution.

For most businesses -

The main thing the scheme is looking for is project expenditure that will reduce energy consumption or carbon output. This might include upgrading existing kit to something that is more efficient.

(Solar panels are excluded under this scheme)

- LED lights
- Air compressor
- Photocopiers
- CNC Machines
- Storage heaters
- Panel insulation
- Double glazing
- Computer server

The Bonus

If you are a business that operates in the green or environmental sector, then you get to spend the grant on more interesting things like;

- New website
- Marketing collateral
- Marketing advice
- Branding
- Plus everything on the first list

The wording of the application is important which is why we will provide 1-2-1 support to help you complete the paperwork.
